FY 2020 Pull Factors* of First Class Cities in Kansas

*Pull factor is the city's per capita sales tax revenue divided by the state per capita sales tax revenue. A pull factor higher than 1.0 indicates the City is attracting residents from outside the city to buy things inside the city; a factor less than 1.0 indicates the city's residents buy things in other cities.

** Derby is the 16th largest of 26 cities of the first class but is tied for the 4th best ability to pull in retail trade from beyond City limits.
