ALCOHOL AND DRUG TREATMENT PROGRAMS

Often time, as a part of his/her sentence or diversion, a defendant will be ordered to attend and complete specific treatment programs. The treatment programs are dependent upon the charge of which the defendant is convicted, and there are numerous treatment facilities in the area. It is the responsibility of the defendant to contact a service provider to schedule all required treatment. The following list was developed by the 18th Judicial District of Kansas and is a list of certified service providers as defined by state statute for the ADSAP program. This list is provided by Derby Municipal Court as a service to those who may not have direct knowledge of area service providers.
