Derby Fire Code Requirements

To assist you with a successful fireworks season, Derby Fire/Rescue Department has established administrative guidelines based upon Derby Municipal Code (DMC), Derby Fire Code (IFC), National Fire Protection Administration (NFPA) and the State Fire Marshal's Administrative Guidelines. These guidelines are not all inclusive, but will serve as a general guide. If you have questions or concerns, contact the Derby Fire/Rescue Department at 316-788-5819 or 316-788-3773.

1. Tents must be completely set up with ALL signage, exits clearly marked, exit signs visible from all areas of the tent, exits in place, fire extinguishers in place, and tables in place, before the tent is allowed to be stocked with merchandise. An inspection by the Fire Department will take place on or before June 27 before tents are allowed to open for sales.
2. Tents, including support ropes and guy wires are not to be placed closer than 20 feet to property lines. (IFC 2403.8.2)
3. NO SMOKING signage must be posted on all four sides inside the tent. NO SMOKING WITHIN 25 FEET signage should be posted outside at all entrances.
4. At least two fire extinguishers with a minimum rating of 2A must be clearly visible. (IFC 906.5)
5. Tents over 300 square feet must have at least two exits. The exits are required to be at least 36 inches wide and must remain open during operating hours regardless of weather conditions. Exit signage must be placed above each exit and clearly visible. (IFC 2403.12.2)
6. At least one watch person over the age of 18 is required to be present when fireworks are being stored in the tent.
7. Trash must not be allowed to accumulate inside the tent. Trash cans inside the tent must be made of non-combustible material. Dumpsters outside the tent must be at least 20 feet away from the tent support ropes or guy wires. (IFC 2404.22)
8. Areas around the tent within 20 feet shall be maintained clear of vegetation or combustible material. Grass should be mowed short in this area. (IFC 2403.8.2 & 2404.21)
9. No parking within 20 feet of the tent, support ropes or guy wires. The parking area, support ropes or guy wires shall be clearly represented by the use of cones, fencing or any material that is durable and clearly recognizable for its purpose. (NFPA)
10. If fireworks become wet due to severe weather, the vendors/wholesalers must have the wet fireworks removed from the site by D.O.T. approved methods no later than 24 hours from the time of damage.
11. Containers utilized for storage of unopened product shall be at least 50 feet from the tent (NFPA) and any commercial structure and 100 feet from residential housing (DMC). Storage should be locked and secured with NO SMOKING WITHIN 25 FEET signage. (IFC 3304)

Any illegal fireworks found onsite at vendor locations shall be confiscated. If illegal fireworks are found in the possession of a vendor or its employees, the permit may be pulled (DMC)
