

**WASTE CONNECTIONS INC.**  
*Connect with the Future®*

Waste Connections of Kansas, Inc (WCI) would like to thank you and the City of Derby for choosing us to be your provider for solid waste and recycling service. As the area's leader in solid waste & recycling service and disposal, you can be assured of the highest quality service available. The contract between WCI and the City of Derby began on December 1, 2009.

WCI is offering 2 different sizes of trash carts:

- **Option #1** 1 - 95 gallon trash cart at curbside **Cost - \$46.87 per quarter (includes both Trash & Recycle Service)** Trash service includes up to 10 additional trash bags - \$1 charge per bag in excess of 10
  - **Option #2** 1 - 65 gallon trash cart at curbside **Cost - \$40.51 per quarter (includes both Trash & Recycle Service)** No additional bags - \$1 charge for each bag next to the cart
  - Every residence will also receive 1 - 95 gallon recycle cart (No additional bags allowed)  
\*\*Recycling service is included in the pricing listed for the trash options above. If you choose not to participate in the recycling program, there is not a discounted rate.
  - Additional trash and recycle carts are available for an additional charge
- \* Keep in mind if you are an avid recycler and you think you may have more recyclable materials than trash, you may want to choose the 65-gallon cart. If you don't think you will recycle much, or will have more than about 6 bags of trash each week, then choose the larger 95-gallon cart.

WCI is excited to offer the residents of Derby our RecycleBank **recycling** program. This is a single-stream recycling program (which means no more sorting!!). You will simply throw all of your recycling into one 95-gallon cart. (Accepted items include: corrugated cardboard, chip board, newspapers, magazines, light-colored office paper, junk mail, plastics #1-7, steel cans, aluminum cans, and all colors of glass containers) The cart will be weighed when WCI dumps the container. Your weight will be converted into RecycleBank points that you can then redeem for rewards, such as coupons, discounts and gift cards to local & national retailers, restaurants and for products you use everyday.

WCI will offer **Carry Out Service** to residents that are handicapped, disabled and/or over 65 years old. Carts must be visible from the street. The WCI driver will go to the customer's house, bring the cart to the street, empty it and return to its original location. WCI must receive proof of disability or see I.D. with address for proof of age. You can take your I.D. to City Hall to be scanned, and the City will send to WCI. This service will be at no charge to the qualified customer. For all other residents who do not meet the above qualification and would like Carry Out Service, the cost is 1.5 times the regular monthly rate. Please contact WCI if you are interested in Carry Out Service.

**BULK ITEMS:** You will be mailed two coupons per year. The coupons are each good for 1 bulky item to be picked up at the curbside or for 1 pickup truck load that you take to the WCI transfer station. You must remit the coupon to WCI at the time of service.

**AUTOMATIC PAYMENTS:** You can view your statements, receive email statements, and make One-time or Automatic payments on our website [www.wasteconnections.com](http://www.wasteconnections.com). We accept Visa, Mastercard or checking/savings accounts on the website. You can also pay by phone with Visa/Mastercard at any time. These options are available at no additional charge.

**\*\*\* Please Contact Waste Connections @ 316-838-4920 to set up your account and let us know which trash and recycling service(s) you prefer. \*\*\***
